

Application No:	Consultees Name:	Received:	Comment:	Response:
2022/1423/P	ANGELA mASON	06/05/2022 18:58:02	INT	<p>This application seems much more reasonable than the earlier application. Reducing the depth of the proposed extension to the original rear footprint of 38a St Albans Rd does not seem likely to impact my property, however, it will still impact on 36a St Albans Rd and I hope that concerns which I understand these owners have raised will be fully considered.</p> <p>I would like to see the management plan for the construction. As a terraced development we are all close together. Do the applicants intend to use the back alley running between houses on St Albans Rd and Swains Lane?</p>
