2022/1331/P	Jonathan Byatt	10/05/2022 21:14:53	OBJ	Objection: there is a significant risk the owners of this property may encourage builders to use Southend close as an access way for their build. Recent experience, with no Impact Assessment provided, of similar builds by residents bordering or neighbouring on to Southend Close have shown them treating this private area as a building site, waste disposal, access way for builds and builders, free parking spaces. With no outreach or consultation we cannot support an application which may use the rear of our estate beside the games area and railway) as a quick way to access the back of the property for heavy building materials. Residence are happy to co-operate and liaise with the owners to resolve any access requirements but without any contact cannot support such an application.
