2022/1316/P	Jonathan Byatt	10/05/2022 21:05:33	OBJ	Objection: There is a significant risk this build will utilise the private property and access onto Southend Close estate. Recent builds on this section of Constantine Road I have used this private property as a Storage Depot, building site, free parking, waste disposal area. Without any Impact Assessment being produced we do not know the extent of the impact to be experienced by residents of South End Close estate. However, previous experience has shown us that estate residents are likely to encounter significant interruption back to normal conditions. Residents are happy to work with the application owner to arrange any access under da agreed and suitable conditions. However any build on the site should as a condition to ensure no access to Southend Close or its environment.
