2021/5549/P	Louise Brooks	11/05/2022 08:45:05	OBJ	<p>Will the bin storage be adequate for 3 flats? If there are 3 flats at this property (2 on plan and one that is not part of this application) there will need to be sufficient space for 6 bins and this hasn't been taken into account. Previous to the build starting and during the current build the bins are being stored in the street blocking the paths.</p> <p>During current works the disabled parking space keeps getting used/partially blocked by various tradespeople at this site and grab lorry. The road is in general and footpath are blocked for 20 mins at a time by the grab lorry removing the waste sometimes daily. If the parking slots north of the property were suspended for the grab lorry to park in this would mean less disruption would be happening.</p>
