

Rafi Miah

Dear Planning Officer,

I have seen this notice of planning and wish to object to this.

My reasons are 2:

- ∞ This is, in effect, a retrospective planning application which attempts to attain legal cover for an act already committed (from 23/2/22). That is to say, that the owner of the restaurant went ahead and installed the sign without permission. This is the oldest game in the book and usually works. I think that all retrospective applications should be refused as a matter of policy.
- ∞ This sign will project beyond the front of the building and be illuminated. This is a residential neighbourhood and not Piccadilly Circus and I do not think it appropriate to the character of the neighbourhood.

I would be grateful for your acknowledgment of receipt of this e-mail.

Yours faithfully,

Meta Zimmeck
