Your recommended package from [The Solar Bureau](#)

Because you weren't sure of your roof size when you registered, we have used the **average number of panels for your location**. The optimal number of panels for **most people** in your region is 6. You can edit your roof details above for a more personalised recommendation.

-

6

+

The total price of your package is: **£5,339**

Prices include VAT at 0% for all Solar installations (inc battery) and 20% for battery-only installations. Please note that if you accept the offer, the installer will carry out a roof survey and suggest changes to your contract if necessary.

In your first year:

		Solar PV	With battery
	You'll save on your energy bill:	£348	£575
	With an export tariff, you could earn:	£77	£16
	Your panels will generate:	2,270 kWh	2,270 kWh
	Of which, you'll be able to use:	1,249 kWh	2,043 kWh
	Your independence from the grid:	13 %	22 %
	The amount of carbon emissions saved:	481 kg	481 kg

Your electricity consumption is particularly high, we use more conservative saving and earnings estimates when this is the case. For more information click below

[Read more about how we calculated your personal recommendation.](#)

These figures are for the first year only, the output of your solar panels is guaranteed for 25 years.

Do you want to add battery storage to your package?

Battery Storage

3.3 kWh

6.6 kWh

9.9 kWh

☐ **£3,235**

Based on your energy usage and the energy that can be generated by your solar PV system we recommend a battery with a capacity of 3.3 kWh.

Personal package breakdown

£5,339

Your offer is made up of the following:

- Complete solar panel system£5,339
- ✓

Roof survey
- ✓

Installation
- ✓

6 panels
- ✓

Inverter
- ✓

Materials and fittings
- ✓

Monitoring tool
- ✓

Extended warranties
- ✓

Insurance-backed guarantee
- ✓

Additional scaffolding for three storeys at £250
- ✓

Additional cost to fix panels on slates at £180
- ✓

Additional scaffolding cost for multiple roof slopes at £400

Shading optimisation

✓ £240

Because you told us your roof is (partly) shaded, we have included an add-on for your solar panels that helps maximise the generation of electricity where there is shade.

Join us for an online information session

You will receive an invitation via email two weeks before your online information session opens.

If you choose to join you will be able to:

•

Hear from us at Solar Together

•

Hear from your local authority about their partnership with Solar Together

•

Hear from your installer and about the products in your Personal Recommendation

•

Ask your questions with our Solar Together experts

What happens after I accept my personal recommendation?

1.

After you click 'Accept' we will ask you to pay a deposit of £150. You have until 13th May to make a decision*.

2.

Once the deposit is paid, the installer will initiate the survey process, starting with a remote survey of your roof.

3.

Afterwards, they will contact you to carry out the on-site roof survey.

4.

The roof survey will verify that you can have the package we recommend.

5.

You and the installer will agree on an installation date, usually within 3-6 months of acceptance.

*Subject to installer capacity

☐ To accept your offer, we ask you to agree to the [Terms and Conditions](#) of the installer by ticking this box.
