2022/1143/P	Emily Thorne Bhattacharjee	13/05/2022 20:58:12	OBJ	<p>I strongly disagree with this planning application. I have lived with my family at 8 Busby Place for 11 years and can honestly say our quality of life has been reduced since this property became HMO. We have on numerous occasions been disturbed until 3am by huge parties that always take place in the garden. We live several doors down and it is a major disturbance so goodness knows what it is like for immediate neighbours. The property has been so over developed that it can accommodate hundreds of random party goers. There were multiple occasions of flagrant disregard for the lockdown rules with parties going on throughout. On one occasion the fire brigade were called and the entire party emptied onto the street at some considerable time past midnight. That volume of random highly inebriated people on our residential street created a very threatening atmosphere as if violence could ignite at any time. We watched from our front window, ready to call the police. The residents of this property are short term and transient and therefore have no sense of being part of a neighborhood and feel no responsibility or accountability for the local community when they hold these enormous parties. Last weekend was another huge party which went on until 2am at least and continue into the following day. Therefore any chance of a peaceful sunny Sunday in our own gardens was ruined by jeering, singing shouting and loud music. At 6:30am after the party, there was an altercation outside the property between a few randoms leaving the property. This is not an environment I have chosen to bring my children up in. So this is the anti social aspect. In addition the property looks a mess with at least 11 bins outside that are frequently overflowing. I fail to see how, when the other houses on this estate have kept the condition of their properties up to the standard required by a covenant in our contracts, this property has been allowed to descend into such a dive. I know most of my neighbours on both sides of Busby Place will also be opposing this application for all the reasons I have highlighted. If planning is granted, it will be a blatant indication of the council's total disregard for the local community.</p>
