2022/2019/P	Rebecca Herbert	19/05/2022 16:01:57	SUPPRT	I think the Highline is a great idea and I support this proposal. I think there will be wellbeing benefits for local people and visitors to Camden, and it will also be good for nature and biodiversity- as the highline will provide a green thread of habitat through a very urbanised area.
2022/2019/P	Camilla Whitworth-Jones	19/05/2022 16:02:50	COMMNT	The Camden Highline is a brilliant scheme which we have watched grow from a visionary idea to now nearly a reality! It will add something spectacular and beautiful to this area as well as linking the much loved Camden Market to the astounding and world beating King's Cross development. The founders of the scheme have involved the local community and schools from the start and that is so important and much appreciated. For young people to watch this happening on their doorstep is particularly important. For us not so young who have lived in Camden for a very long time - we can't wait!

2022/2019/P	Philip Gee	19/05/2022 16:23:27	SUPPRT	I am writing in support of the proposal. In my view the new park will provide: A really valuable east-west pedestrian link to connect Kings Cross and Islington to Camden. An important amount of high quality green space and recreational area away from kerbside pollution. A celebration of the Victorian infrastructure of the area which also ties in well with the wider Kings Cross redevelopment.
2022/2019/P	Silvia Gallotti	19/05/2022 16:23:48	SUPPRT	This is a wonderful project which will make use of some derelict space and add an excellent link from Camden Town to Kings cross, safe for pedestrians and cyclists and more green spaces in the area. Please make it happen!
2022/2019/P	louise ellen cooke	19/05/2022 17:46:58	SUPPRT	I support this fantastic project !
2022/2019/P	Tom Storr	19/05/2022 19:31:07	SUPPRT	This is such a great idea, creating space for pedestrians to get around Camden away from roads and opening people's minds to what is possible
2022/2019/P	Darren Searle	19/05/2022 12:57:16	SUPPRT	As a local resident, I 100% support this plan for the Camden Highline! I think it will be good for Camden and put us back on the map. It's an exciting project and I hope the council gives it the green light!
2022/2019/P	Steve Goldring	19/05/2022 13:21:31	SUPPRT	I've been following the development of this project for some time, and as someone who has lived in within a couple of miles of Camden for over 50 years, it seems extremely clear that this is a significantly positive change for the area.
2022/2019/P	Sam Feller	19/05/2022 13:21:36	SUPPRT	I fully support the planning application for the new Camden skyline project. It will bring some life to a previously unloved area and provide some respite in an urban landscape which I feel will improve the mental health of the local community.

2022/2019/P	Andrew Stewart	19/05/2022 13:41:52	COMMNT	I very much support this application. The Camden Highline would/will be a truly fantastic piece of enjoyable living infrastructure bringing so many benefits to Camden residents and visitors alike. Native species planting will be of extraordinary value to insect and bird life. We humans will have a peaceful oasis of natural and yet fully urban to enjoy, sit or picnic in. It's a wonderful project and I urge the Borough of Camden to back it fully.
2022/2019/P	Julia Shaw	19/05/2022 13:42:13	SUPPRT	I fully support this planning application, to bring some green space to the area.
2022/2019/P	Annemarie Payne	19/05/2022 13:42:32	COMMNT	I think this will be an excellent addition to the area.
2022/2019/P	Stephen Evans	19/05/2022 14:41:22	COMMNT	This seems a huge amount of money to spend on a very limited facility. Unlike high lines in Paris or New York, this runs alongside an active railway line, which must severely restrict the pleasure that such an amenity must offer. In addition, users will suffer from significant air and sound pollution.

2022/2019/P	Damian Mansi	19/05/2022 14:34:33	COMMNT	<p>I totally support this planning application which seems to be an effective use of wasted land in the urban city environment. These arches need to be utilised and this will prevent misuse of the area due to the positive impact the facilities in the application will have on the initial plot.</p> <p>It will provide a nice walkway in further phases between Camden Town area and Gospel Oak hopefully and should make great use of underutilised and difficult to use land. It could also be integrated into the land development at Murphys Yard and could I imagine help reduce the carbon footprint of that project if properly managed.</p> <p>When I talk to other local residents they all seem positive about it too. The roads here are very noisy and polluted in some parts and this could create an oasis of calm in the hustle and bustle. It also seems to be in line with current urban planning for carbon reduction and more green spaces healthy lifestyles walking and cycling. I don't see any significant detrimental issues to the project at first view.</p> <p>I like the idea too that it includes positive opportunities for employment of local people in environmentally friendly ways potentially. It would also add to the areas amenities by linking existing parkland creating necessary green corridors for humans and wildlife in an area where there isn't a great deal apart from the Heath which has restrictions.</p> <p>It seems to also create a new path for tourism linking existing tourism amenities with other areas of beauty and sites of interest. This should only help boost further the local economy and quality of life for local residents.</p> <p>What's not to like. Please support this project and help get it off the ground and moving. The sooner things like the Camden Highline are completed the sooner we can use it! Healthy residents healthy Camden. Reduced NHS costs. It all sounds good for now! Thanks.</p>

2022/2019/P	Lee C. Varian	19/05/2022 21:39:43	SUPPRT	Although I live in America, I still strongly support the plans for Camden Highline Phase 1. I have visited the proposed sites for the Camden Highline and viewed the plans, all of which seem very sensible to me. (I worked as a volunteer many years ago to support the creation of the NY High Line, which in my opinion has been a great success and added to the vitality to its neighborhood on the west side of Manhattan. I'd expect to see similar benefits to Camden from the development of the Camden Highline.)
2022/2019/P	Joseph Grabiner	19/05/2022 21:45:05	SUPPRT	I've been following plans for the Highline for well over a year now and am so excited about it. 2022/2019/P	Amy Dron	19/05/2022 21:45:08	SUPPRT	<p>The Camden Highline will bring so many benefits to the local area, its residents, and to the whole of London. Having a new green passage across Camden will encourage more people to walk and cycle, permit more people to do so who may be put off by the crowded canal walk, and improve the physical and mental health of all who use it.</p> <p>Local businesses will enjoy more customers, new businesses will be able to open to cater for the increased pedestrian and cycle traffic. With the plans looking so good and connecting key parts of the city and other walking routes, the elevated park and pathway will also be a tourist attraction, as is the New York High Line.</p> <p>The green spaces and rich history of the original infrastructure of the Highline will provide children with much needed additional nature and play space in central London, and afford schools the opportunity for educational trips. The route is also a perfect green corridor to support the growth of flora, the transit of insects, and will provide a safe habitat in which wildlife can reside. In addition, the more trees and greenery we can plant in London, the better we will be able to soak up carbon dioxide, reduce rainwater runoff, and mitigate urban heat island effect.</p>

It's what the area sorely needs.</p> <p>The high line in New York it's one of my favourite public spaces and I'm excited just to think of a local version inspired by it.</p> <p>I back this application (though I have zero involvement) 100%</p>
2022/2019/P	Bridget	20/05/2022 00:01:00	COMMNT	This is a fantastic use of space that has laid defunct and unloved for many years. It will provide a beautiful area of parkland which is so beneficial for mental and physical health. Ecologically it will encourage birds bees insects and other wild life to return to the city. It will be a place of leisure and learning for children and young adults. It has already brought a volunteer group to help with maintenance and planting and has had a positive and favourable response from the community and local businesses. This is definitely a project that benefits the wider community both locally and tourists. One only has to look across to NYC to see the HUGE benefit the Highline has had on NYC to know it will equally benefit the community, businesses, trades people and bring tourists too to see and investigate. An excellent opportunity for the council to do good

2022/2019/P	Adrienne Hawkes	19/05/2022 12:55:20	NOBJ	I think this project would greatly improve the pedestrian options when travelling between York Way and Camden. The added green space will have a positive impact on the environment and wildlife while also attracting people from other parts of the city looking to enjoy the space.
2022/2019/P	Nathaniel Wade	19/05/2022 14:41:22	SUPPRT	A great idea with multiple advantages: transport (walking route), tourism, leisure, local economy, greening, public space created from disused space and all the environmental consequences derived from increasing the number of people out and about on foot in the heart of Camden.
2022/2019/P	Stephen Evans	19/05/2022 14:41:27	COMMNT	This seems a huge amount of money to spend on a very limited facility. Unlike high lines in Paris or New York, this runs alongside an active railway line, which must severely restrict the pleasure that such an amenity must offer. In addition, users will suffer from significant air and sound pollution.

I think the highline application is a very positive proposal to transform and enhance some unused and neglected space. I believe as yet unexpected benefits will manifest themselves when the project is implemented.</p> <p>Although I no longer live next to the route I live close enough to be confident that I will make use of the highline with family and friends.</p>

2022/2019/P	Rebecca Crum	19/05/2022 12:59:58	SUPPRT	It's an inspired idea - greening up under-used infrastructure and turning it into public space, plus providing new ways to get around the borough and encouraging walking. Really hope it happens.
2022/2019/P	Franny Armstrong	19/05/2022 13:00:43	SUPPRT	I am a home-owner right next to the railway line on St Pancras Way and I think this is the most exciting and visionary proposal to come to Camden in the 25+ years I've been in the borough. I am fully supportive of the proposal and look forward to the day that we have a Highline park to rival New York's with great anticipation.
2022/2019/P	Laura Hackett	19/05/2022 13:00:55	NOBJ	So excited for this to go ahead. Bringing more green space to the area and making use of an space that would otherwise be going to waste. Bringing the community together to volunteer and help develop the project. It's fantastic.
2022/2019/P	Richard Huntington	19/05/2022 17:45:37	COMMNT	I'm so pleased that the Camden high line has got to the planning stage and sincerely hope that it will be approved. This is a stunning idea to bring a new green space to the heart of Camden and provide a new walking, running and cycling transport route east to west in this part of the borough, something made difficult because of the railways that divide Camden. This is a high quality proposal with excellent design and landscaping credentials and bound to be a massive contribution to the amenities and beauty of Camden as well as using a redundant piece of infrastructure in a meaningful way.
2022/2019/P	Daniel Pick	19/05/2022 17:53:53	COMMNT	This is a great project, and I hope it receives swift approval.
2022/2019/P	Jane Jacks	19/05/2022 19:36:48	SUPPRT	<p>I support this project as it's a welcome addition to Camden's diverse urban landscape. It's likely to be popular with tourists yet still offer something to the resident population, unlike a lot of the commercial premises that have opened recently.</p> <p>I also like its promised green credentials and disabled accessibility.</p>

2022/2019/P	Philip Herrey	19/05/2022 13:16:17	SUPPRT	<p>What an amazing project! We have been following the development and dedication of the project team from the early days and are excited to see this stage. Having lived in New York and seen the urban transformation the Highline equivalent did for the neighbourhood I think this will be a transformative project at a relatively low investment.</p> <p>We live close by and would definitely support the project through usage and by frequenting the businesses that will be benefiting from the development.</p>
2022/2019/P	Karl Madert	19/05/2022 13:16:55	SUPPRT	<p>As someone familiar with the Camden area over several decades, I believe that the Highline project will be of huge benefit to the area. It will repurpose what is otherwise derelict and unused space and create a green sustainable environment that will bring positive physical and mental health benefits to all those who use it. Having lived in London all my life, I can only reflect on how projects such as this are so overdue. Having recently cycled from Camden to Kings cross along the canal tow path, the Highline would be a fitting continuation of the fantastic regeneration work that Camden council has encouraged and supported. I see no reason why the project should not be approved.</p>
2022/2019/P	Kate	19/05/2022 13:38:18	SUPPRT	<p>A wonderful and very well considered addition to this part of north London. Can only see positive benefits for its installation and am very excited to see it created</p>
2022/2019/P	Emma Saddleton	19/05/2022 13:40:57	SUPPRT	<p>This will be an amazing project for the area - both from a local perspective (by bringing green space) as well as increased tourism for local businesses. I'm impressed how the project team are embedding the design process within the community. This isn't the garden bridge! I look forward to watching this Highline garden grow, and to see it shared and enjoyed by all for years to come.</p>

2022/2019/P	Bob House	19/05/2022 21:58:08	SUPPRT	<p>As a long term Camden (Kentish Town) resident, I view the proposed Camden Highline as the most exciting development in the area over the last 35 years. Walking in the local area has always given me a lot of pleasure, whether it be on Hampstead Heath, Camden Lock, the Regent's Canal or round the new Kings Cross and Granary Square area. The Highline will enhance local walking opportunities substantially, in particular by providing a potential circular walk between Camden Lock and Granary Square combining the Highline, the canal towpath and the Camley Street nature reserve.</p> <p>As well as the personal benefits that I will get from the Highline, I envisage that it will become a major asset for the borough as a whole, both in terms of recreational use for local residents and of attracting visitors to the area with concomitant benefits for local businesses. The fact that it is a pedestrian, rather than car, centric development makes this all the more attractive as it will come with a low-impact carbon footprint.</p> <p>I very much hope that the planning authority will see fit to give this application a resounding go-ahead.</p>

2022/2019/P	David Bolam	20/05/2022 00:56:47	SUPPRT	As a former Camden resident and someone who worked and played in Camden Town and Chalk Farm during the '70s & '80s I've been dismayed at the tatty blandness affecting the area over the past twenty years (pre-Covid I would visit once a year from the US). I have followed the Highline project with interest and it seems to me a much needed shot in the arm for the area with no downside. Do it!
2022/2019/P	Jennifer Watts	19/05/2022 12:42:53	COMMNT	I think this Camden Highline is an excellent project for the local community, for businesses and individuals in Camden. It will be of huge benefit to visitors and residents.

2022/2019/P	dj binns	19/05/2022 12:42:56	SUPPRT	This is an amazing project to connect Camden & Kings Cross. The Highline in New York creates a whole new vista, with inspiring planting and is my favourite to experience and walk. Local communities and schools would benefit, and the Highline could regenerate Camden Town, which has become very run down and shabby. I support this planning 100%

I have been visiting this are since just after 1945 having been brought up in Islington. This scheme will create a very exciting addition to both Camden and central London. It should be beneficial both on a personal level for visitors and residents as well as an encouragment to London's local and to our capital's businesses.
2022/2019/P	Peter Stephenson	19/05/2022 12:46:38	SUPPRT	this is a tremendous idea, get on with it!
2022/2019/P	Ben Keen	19/05/2022 12:47:29	SUPPRT	This is very probably the most exciting plan ever to be initiated in Camden and I want to express my wholehearted support. 2022/2019/P	Mike Baker	19/05/2022 12:47:45	PETITNSUP P	I am a big fan of this idea and have New York in mind as a model.
2022/2019/P	Alex Yates	19/05/2022 13:02:15	SUPPRT	Live and work in Camden. As a resident the highline is a really innovative and inclusive regeneration project that should contribute very positively to the health and well being of residents and visitors alike. It also will also make a huge area of land safe and accessible for young people - opening up a key through line in the borough and providing opportunities for education, adventure and exploration that were not there before. Strongly support.

2022/2019/P	Chloe Hall	19/05/2022 11:41:10	OBJ	<p>As a nearby resident to the planned works I strongly object to this application in its current form. Most importantly the planned 'event' spaces of 90 and 120 people. This is a residential area. Ambient noise of so many people will carry like a giant party. If music is allowed too this will be incredibly disruptive whether done in the daytime or the evening. Camden Market and the newly regenerated Hawley Wharf are the places for mass public gatherings, not this quieter residential area. In addition the intention for the arches under the railway to be used in conjunction with the events space likewise will be noisy and disruptive in particular to numbers 5 and 7 Prowse Place and those on Camden Street whose properties are direct neighbours.</p> <p>Looking at the lighting scheme the intention appears to be for night time events. Events nor the park should not be allowed under any circumstances in the evening.</p>

2022/2019/P	Anthony Whitworth-Jones	19/05/2022 16:37:13	SUPPRT	<p>The Camden Highline is a fantastic project which will enhance the quality of facilities and leisure opportunities for Camden residents particularly, but also for visitors to the area.</p> <p>Using existing derelict railway infrastructure, the project is a highly imaginative solution to using rare urban space that has lain dormant for decades.</p> <p>The environmental and ecological components are many and detailed. The pleasure it will give to people cannot be overstated.</p> <p>There is an educational aspect to it as well, and schools have already been involved in developing children's creativity relating to the Highline.</p> <p>The Highline will connect the collective commercial mass of the Camden Market with the brilliant new hub which is the Kings Cross Development, making pedestrian access between the two both easy and enjoyable. I hope it can become a reality soon.</p>
2022/2019/P	Margaret Howat	19/05/2022 17:02:04	SUPPRT	<p>Give full support to this well thought out plan which will greatly enhance the area for everyone in the community.</p>
2022/2019/P	Martin Wiltshire	19/05/2022 17:34:44	NOBJ	<p>We fully support this project to encourage local, national, and international use; particularly for tourists.</p>
2022/2019/P	Dr Catherine Horwood	19/05/2022 17:02:18	SUPPRT	<p>I am writing this as a Camden resident from birth, a garden historian and a horticultural writer. I have followed this project almost since its inception with growing excitement. I was one of the first to walk the route on the road under the tracks. That was several years ago and, in the meantime, my support for this project has grown stronger and stronger. I have watched many of the design-team led presentations and am blown away not just by the imaginative designs but also by their consideration for and involvement with neighbourhood groups and how that has been incorporated into the project.</p> <p>While the popular tourist areas of Camden Market and King's Cross bring benefits to Camden, there has always been something of a wilderness in the stretch of land between these two commercial areas but the sort of a wilderness that has little engagement with greenery for those who live there. The exciting designs for the Camden Town entrance make excellent use of the otherwise mostly neglected Camden Gardens site. And the addition of the entrance plans around Camden Road Railway Station would transform a run-down area with its imaginatively designed entrance. The division of the line into the themed areas ensures that visitors of all ages and backgrounds are catered for.</p> <p>As a garden historian, I am well aware of the transformational effect of the New York HighLine on its surrounding areas. While this project is on a much smaller scale, I have no reason to doubt that we could hope for, indeed, expect, similar success from this project as well. To my mind, both as a Camden resident and someone passionate about the benefits of a good ecological environment on people's physical and mental health, this marvellous and imaginative project should be fully supported by Camden Council.</p>

Camden needs more open spaces - this one will create a wonderful a safe car-free route through a traffic heavy section of the borough and provide space for vegetation that will help reduce pollution. Please grant planning permission.
2022/2019/P	Valerie Pyott	19/05/2022 23:21:02	INT	<p>I very much welcome the Camden Highline after walking the Highline NYC some years ago. New Yorkers took to the concept, supported it and since opening the regeneration by high end businesses of dilapidated localities along the Highline route have been very successful.</p> <p>Also, it offers a pleasant and healthy walking route from east to west and vice versa similar to that offered by the canal. It will encourage Kentish and Camden Towners to walk to King"s Cross and Camley Street Wildlife Garden reducing the necessity of bus and tube.</p> <p>The climate emergency needs more green sites, pollinators, wildflowers, cleaner air. The Camden Highline ha a potential to increase all of these.</p>
2022/2019/P	Clive	19/05/2022 12:52:01	COMMNT	<p>I very strongly support this application as it will be a fantastic amenity for both Camden and London generally. It will bring in locals and tourists which will enhance the area and will also involve extra spending for local businesses.</p> <p>If it is as successful as the model in New York it will be of great benefit to the area.</p>
2022/2019/P	Neil Grayshon	19/05/2022 14:07:23	SUPPRT	A well considered scheme with considerable public benefit.

2022/2019/P	Doug James	19/05/2022 13:08:17	SUPPRT	I visited this project (guided tour) in 2018 and was impressed and excited about what it could add to the area for locals and visitors alike. The current plans add green space and connectivity for local residents. I lived in Camden from 1990-93 and still have friends there and frequently return. The Highline would offer a new route from Kings Cross to Camden which I would really enjoy exploring.
2022/2019/P	Susan Angoy	19/05/2022 13:23:05	NOBJ	I fully support the Camden Highline planning application. I have supported this scheme from its inception and believe it will add significantly to the area. This is a part of Camden with major arterial roads and excessive pollution. The Highline will help provide some beauty and respite for the area. Gardens and greenery are known to help mitigate some of the excess pollution in highly built-up areas intersected by major arterial roadway systems.
2022/2019/P	John Ashwell	19/05/2022 13:32:48	NOBJ	I fully support this scheme - to open up a green walkway from Kings Cross to Camden will have numerous benefits by encouraging more walking away from polluted roads, whilst reimagining this long disused railway. Furthermore green corridors improve local wildlife habitat.
2022/2019/P	Lucy Heller	19/05/2022 13:49:30	COMMNT	Would be a hugely positive addition to Camden. Hope this can happen!
2022/2019/P	Louisa Pierce	19/05/2022 14:11:19	SUPPRT	This project has my total support. This will be wonderful for Camden, a real asset. All credit to the team for getting it this far.

2022/2019/P	Mark Smith	19/05/2022 14:17:04	NOBJ	Excellent use of unused space providing a local attraction that people can enjoy while also providing ecological benefits for wildlife.
2022/2019/P	Sally Cowan	19/05/2022 14:17:31	SUPPRT	This is a wonderful idea which will add to the greenery of the area and be a great place for working/exercise. Thus helping to reduce pollution and aid the wellbeing of local people
2022/2019/P	andrew hull	19/05/2022 14:19:24	SUPPRT	Hugely supportive. Exactly the type of development we need to make Camden a greener, more pleasant place to live and work. More space for pedestrians and cyclists to enjoy the city.
2022/2019/P	Mary Marino	19/05/2022 14:33:39	SUPPRT	The Highline will have a positive impact on the surrounding area and community, and also the environment. It will encourage people to walk, and be part of the community. I very much support this proposal.
2022/2019/P	DAVID FOLEY	19/05/2022 15:36:24	NOBJ	It's a great idea as a destination as well as a journey like the one in New York City. I'm looking forward to it opening

2022/2019/P	Lyndon Buck	19/05/2022 12:40:13	COMMNT	I would very much support this planning application for the Camden Highline as it will breathe new life into this part of North London and will encourage local residents to take more interest and pride in their local area. Hopefully it will also encourage more walking and exercise and allow more social interaction between residents. It should also encourage more visitors to the area and allow for additional access without putting further strain on public transport. It is a bold and exciting plan which has been designed over a long period with much public consultation and I believe that this should be approved

2022/2019/P	Andrew Lock	19/05/2022 16:19:36	COMMNT	An amazing idea that should be given full planning consent and backing from the council. It will breath new life back into an unused, unloved and unrealised strip of land. It will also save Camden Gardens from its fate at present, which despite good efforts is still a hangout for drinkers and is completely underused. Shops or cafes under the arches would transform the place too.
2022/2019/P	Tom Jamson	19/05/2022 17:16:28	SUPPRT	I would like to lend my support to this extremely exciting project. A fabulous idea and brilliant way to bring our heritage back into use.
2022/2019/P	Francesco Guariglia	19/05/2022 17:37:34	SUPPRT	This is a great initiative to add rejuvenation and more green space to a busy, post-industrial area.

2022/2019/P	NICOLA DUNN	19/05/2022 19:41:08	INT	I think this would be amazing to have a Highline from Camden to York Way. The one in New York is amazing. Walking along the can, at the moment from Kings Cross to Camden, which is a very thin walkway and has too many people and too many cyclists sharing this tiny walkway. So a highline using the derelict railway line, would be lovely. With lots of trees, plants and flowers.
2022/2019/P	Lyndsay	19/05/2022 21:28:44	COMMNT	A huge new access-all asset to our area that greens the community and gets us walking and viewing spaces from new angles. If it does anything like what New York's highline has done we're all winners
2022/2019/P	Susan Dorrell	20/05/2022 08:22:19	SUPPRT	This is a wonderful project that would do so much to improve the environment I really hope it goes ahead. The project would be a boom for bio-diveristy and active transport, and would bring economic and social benefits to the whole area.

2022/2019/P	Gillian Tinndall	19/05/2022 19:21:47	NOBJ	The highline project is an excellent one. As an adjacent rail-line is still in use, it will not have quite the character of the New York Highline, but it is an imaginative and thoughtful use of an unused above-ground route, and should help revitalise Camden gardens which were spoilt by the arrival of the railway across it in the late 19th century.
2022/2019/P	David Fathers	20/05/2022 08:59:30	SUPPRT	I wish to endorse this project whole heartedly. As a walker (and author/illustrator of several London guidebooks) I believe this will be a fantastic resource not only for the people of Camden and Kings Cross but for the rest of London too. It will create a high level pedestrian link between two vibrant areas of north London. The project reminds me of the Parkland Walk from Highgate to Finsbury Park which opened in 1984. This former railway track has now become a great asset for walkers and cyclists alike.

2022/2019/P	Anthony Poole	19/05/2022 14:22:25	SUPPRT	I am fully in support of this wonderful plan! It will greatly benefit the local community, businesses, and being a fresh and much-needed new attraction and green space to the area.
2022/2019/P	James Bowen	19/05/2022 14:47:57	SUPPRT	My family and I are wholehearted supporters of this planning application. It will encourage us to visit Camden far more frequently. We believe the Highline will benefit the local economy and improve health and wellbeing for not only locals but those from further afield.
2022/2019/P	Dominic Winchester	19/05/2022 14:49:49	SUPPRT	I have been a supporter of the Camden Highland concept since it was first announced, and having walked the New York Highline I know what a great opportunity this is to bring neglected infrastructure back to life in a way that is of benefit both to the local community and to domestic & international tourists. I think the idea is fantastic, and the commitment and professionalism the team have show since conception is impressive. Please please please grant permission for this vision to become a reality!

2022/2019/P	john fonnereau	19/05/2022 14:54:15	SUPPRT	This project is a "must" for Camden Town. It will create jobs but above all it will help to establish Camden worldwide as a "must visit" destination. Please allow this scheme to go ahead asap. Thanks.

2022/2019/P	Charlotte Samuel	19/05/2022 21:44:47	COMMNT	This project is a wonderful and essential idea that would work wonders for the extended local area. The walking/ cycling / social gathering space between the popular areas of Camden and King's Cross is extremely limited and this would not only offer a great solution to this but also offer so much more. There could be retail spaces, park and seating areas, cafes, greenery, etc. Just look at the success of the highland in New York and think about the potential here in London! Please do go ahead with this project asap - it will do wonders for Camden, Kentish Town and King's Cross!

It is a long time coming and a lot of time and effort has been put in to produce this exciting project from what I have seen and read from receiving updates regularly. Certainly everyone's opinion has been taken into consideration with open days and consultations locally. I spend a lot of time in Camden and I believe this wonderful high line will add considerably to the neighbourhood and will become a focal point and a 'must visit' on a trip to London. My visit to New York was highlighted by a lovely walk along the high line. This is unique this side of the pond and this is the perfect location. Please approve this application.

2022/2019/P	Julian Keith	19/05/2022 13:11:29	SUPPRT	I am a Camden resident if 40 years, and now father to a 7 year old Camden resident. I am also a person who has visited the New York high line three times in recent years. I am also a person who works in property, planning and development. All I can say is this: the community-led, well-designed creation of public space is exactly what this Borough and City needs and I've been impressed by both their engagement with the community but also approach to design quality and placemaking. We have an opportunity here to make space for families, residents and visitors which would otherwise be redundant. With the catastrophic loss of open and play spaces in Central London it would be a shame, and not in the public interest, to refuse any permission for this type of thing. Indeed, the Council should be using our tax pounds to assist in the development and maintenance of such a space to improve the well being and lives of those who use it.
2022/2019/P	Patrick Meredith	19/05/2022 13:13:58	SUPPRT	In the summer of 2016, I visited New York City for the first time and we came across the Highline project there. This ended up being a highlight of the trip, with it not only helping to allow a break from the busy, cosmopolitan foot traffic of the city, but it also assisted in making practical use out of otherwise unused land. I believe something like this would be great to have in London, and Camden specifically. It would help give everyone a new space to make use of, as well as provide opportunity for more businesses to set up in close proximity to the Highline.
2022/2019/P	Miranda Pitcher	19/05/2022 13:14:18	NOBJ	This is a really exciting environmental project which will make it one of London's top attractions for visitors. It will encourage natural habitats and bring greenery to an urban setting.
2022/2019/P	Jeremy daudin	19/05/2022 13:14:18	SUPPRT	I absolutely love the Highline in NYC and believe this is a great opportunity for the area and london. And as an hotelier working in KX, what a great recommendation for our clients.
2022/2019/P	Deirdre Yager	19/05/2022 13:18:41	SUPPRT	I fully support this application. It will be a wonderful addition to Camden's environment and an original use of dead space, unique in central London
2022/2019/P	Anna Carolina	19/05/2022 17:08:32	COMMNT	A fantastic initiative
2022/2019/P	Ron Aslan	19/05/2022 17:08:38	COMMNT	I support this project
2022/2019/P	Jon Ward	19/05/2022 18:43:23	COMMNT	I think this would be an amazing green artery in one of the most overdeveloped areas of London
2022/2019/P	mark hockings	19/05/2022 15:41:11	SUPPRT	Hi, I am a resident of 12 years and I think this is a wonderful idea to improve the quality of life for residents and guests. Let's make use of what we have. Improving pedestrian routes and environments should always be a priority for health, wellbeing and safety.
