2022/1547/P	Mrs C Brown	19/05/2022 17:01:11	COMMNT	We have looked at the plans for this infill extension in the garden of this property, which backs onto our garden, and we think it looks very reasonable and well designed. We don't think it compromises the architectural integrity of the rear elevation of this terrace and it won't be visible from our side. No objection.
