This application for a small side extension at ground-level to a tall Victorian Italianate Semi-detached Villa would be much more acceptable with a flat roof.

The proposed very small area of pitched roof would be very visible from the street and would be a disruptive and unnecessary element - particularly to the character of these tall formal Italianate Villas, where the low-gradient sloping roofs are the visual terminal at the TOP of the facade.
Please refuse unless an amendment to a flat roof is made.
