Although they are not significant they make their contribution to the public realm and, of course, have the potential to grow into trees which, in the future will make up for the loss of trees in the area that die.</p> <p>If the permission is granted, we would suggest that suitable replacement trees are planted. The Trust might negotiate with Camden Parks department to plant significant trees along the boundary with Waterlow Park. This would mitigate the loss of trees and provide screening from Waterlow Park.</p> <p>Highgate Neighbourhood Plan Policy OS2: Protection of Trees and Mature Vegetation Within the conservation areas or when protected by a TPO, specimen, veteran and mature trees and mature vegetation, which have townscape, ecological or amenity value should be retained where possible. If such a loss is shown to be absolutely necessary, new development will be expected to submit proposals for suitable replacements, like for like replacement being supported where appropriate and feasible</p> <p>Louise Lewis Highgate Neighbourhood Forum</p>
