Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Full Planning Permission Granted

Address:

**47 A Hampstead High Street
London
NW3 1QG**

Proposal:

External alteration to involve replacing the roof of the existing rear conservatory with a glazed roof and raised brickwork

Drawing Nos: Site location plan, Block plan, Existing plan and Elevations, Proposed plan and Elevations.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: Site location plan, Block plan, Existing plan and

Elevations, Proposed plan and Elevations.

Reason:

For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting permission:

This application involves replacing the existing roof of the rear conservatory from a part flat, part pitched roof to a lean too glazed roof. This would be achieved by alterations to the existing roof structure, the existing brickwork would be raised to support the front post and cill under the roof and the new roof would consist of aluminium rafter with white PVCu (Poly Vinyl Chloride) capping with tinted toughened glass sheets. The side brick parapet walls would be increased slightly from the front to the back so that there is a consistent wall height along to incorporate the glazed roof within.

The new designed roof would be well proportioned, in line with the existing conservatory scale and the use of materials would be considered appropriate given that part of the existing conservatory was also glazed.

Given the siting, design, minor scale of the proposed works and separation to neighbouring properties, it is not considered the proposed works would unduly impact on the residential amenities of the neighbouring occupants in regards to loss of light, overbearing or overlooking impacts.

No objections have been received prior to making this decision. The sites planning history was taken into account when coming to this decision.

Overall the changes would not harm the character and appearance of the host building, streetscene and conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies A1 (Managing the impact of development), D1 (Design) and D2 (Heritage) of the Camden Local Plan 2017. The proposal accords with the London Plan 2021 and the NPPF 2021.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and

emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).

- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 4 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
