2022/2019/P	Iain Flynn	26/05/2022 17:57:41	SUPPRT	<p>[REDACTED] the proposed entrance and balcony. This building is mentioned in the heritage report as being Grade II listed and having a rare surviving wooden veranda.</p> <p>Despite the extra noise and activity it will engender I am in support of the proposal as being beneficial to the area for both visitors and residents. Camden is still struggling to recover after Covid and this would be a boost.</p> <p>I don't agree with other residents who complain about noise, although in some cases they may be even nearer the Highline than me. Noise and activity is part of the attraction of living in London and Camden and I can't see the occasional event finishing at 22:30 as being particularly burdensome or adding much to the already high levels of background noise.</p>
2022/2019/P	James Alexander	25/05/2022 22:44:39	SUPPRT	<p>The Camden Highline proposal is a spectacular concept that promises to transform the local area. Inspired by other parks on disused railways, such as the success of the New York Highline, the plans will bring international attention to Camden and its extraordinary railway history.</p> <p>This is a magnificent way to revive this long-forgotten public infrastructure and create a new attraction that will be enjoyed by locals and tourists alike. It will boost local businesses by increasing footfall and enhance the natural environment, bringing new wildlife into the city and allowing young people to appreciate and encounter nature in an urban setting.</p> <p>This is a once in a generation opportunity to create an amazing new public space, and I urge the Council to back it wholeheartedly.</p>
2022/2019/P	S Martin	27/05/2022 01:07:08	SUPPRT	<p>What a wonderful idea - the railway lines divide Islington from Camden and this is a great way to link two communities in a green, friendly way.</p>
2022/2019/P	Marilyn Taylor	22/05/2022 07:58:43	COMMNT	<p>I support this application. Tremendous vision.</p>
2022/2019/P	Sharon Chen	20/05/2022 17:21:24	COMMNT	<p>I think the Highline will be a fabulous addition to the neighbourhood. I've visited the ones in both New York and Paris and seen first hand how less loved areas have been reinvigorated.</p> <p>Bring it on!</p>
2022/2019/P	Ruth Desforges	26/05/2022 16:01:22	SUPPRT	<p>I believe this development will have a positive impact upon Camden and the communities and biodiversity within it. Although I am not currently a resident of Camden I have worked in the area for 14 years and previously lived within it for 10 years.</p>
2022/2019/P	Camden	25/05/2022 17:48:08	SUPPRT	<p>This is very important for the future of Camden.</p>
2022/2019/P	Julian Zarzoso-Lowe	25/05/2022 17:23:19	SUPPRT	<p>Excellent idea to bring more pedestrianised green spaces to an area of London which could do with them. Plus all of the biodiversity positives. Worth it.</p>

2022/2019/P	Daniel Jacobs	23/05/2022 16:41:50	SUPPRT	Sounds like a very good plan. Very much in favour.
2022/2019/P	peter silverton	26/05/2022 19:45:05	COMMNT	the most wonderful of proposals - in notion, placement, fitness for purpose and -t seems - design quality - it will give a top new circulation route to an area too often best known for the death of victor meldrew, sickert's camden town murders and the final scenes of the tv version of tinker, tailor, - I've walked new yorkhighline several times and great as it is, it has two major flaws both of which the camden one seems to have faced down even before the design is put to the vourt of public onion - high, high maintenance horticulture and weak community involvement. This is exactly thekind of small and local/global built environment projects which every city should welcome and nurture - let a thousand highlines bloom
2022/2019/P	Alison Huntington	26/05/2022 23:03:29	COMMNT	Such a wonderful scheme. I moved north from this part of Camden 20 years ago because it was so lacking in greenery - these ideas are a joyous way of greening the area, bringing neglected corners back to life and giving us all a new perspective on our city. Wonderful that it connects to the magical Camley Street too.
2022/2019/P	Julien Plante	26/05/2022 11:35:04	SUPPRT	Great for our future and the future of Camden.
2022/2019/P	Stephanie	26/05/2022 17:43:51	SUPPRT	This will provide a green walking link between Camden and kings cross and also a wildlife corridor linking up other green spaces in the area. It would be amazing if it goes ahead and really show how much the council values nature and its value to the community.
2022/2019/P	Rosana Popovic	25/05/2022 23:04:35	COMMNT	This is a very exciting project that I have been following with interest and think it will have a huge impact at regenerating this part of Camden, which tends to get the downside of all the visitors. Having the start of the high line will have an enormous impact on the local area and allow Camden Town to benefit from the regeneration of Kings Cross.
