2022/1538/P	Daniella	31/05/2022 06:02:52	COMMNT	Belsize village had undergone a renaissance over the past couple of years. It has potential to be one of the best places in London but is still pretty grubby. The bin/rubbish area is a big contributing factor here. I would like to express my support for making the bin area more attractive through planters or whatever other means.
2022/1538/P	Robert Stephenson-Padron	31/05/2022 04:45:59	SUPPRT	<p>I strongly support the bins and the proposed bin covers. The removal of the historic rubbish mound that blighted Belsize Terrace for about 10 years up until its removal in July 2020 by the Belsize Village Business Association has removed its blight to our conservation area and allowed our once abandoned village square to transform into a centre of community life.</p> <p>The square absent since July 2020 of the once almost constant pile of rubbish means my elderly and disabled users of services and workers can easily navigate the square. The bins ensure the old days of fox leakages are largely over which means pathways are kept tidy. Attractive bin covers would mitigate the look of the bins and put planters over them which would enhance the greenery of Belsize Terrace and ensure it remains cleans.</p>
2022/1538/P	Chris Balkos	31/05/2022 07:28:10	SUPPRT	The cleaned up square is the primary reason that Belsize Village is enjoyable to sit in. The village square is a very key part of social life in the neighborhood and the environment focuses residents' attention on improving our shared home, cultivating a sense of community and shared ambition for improvement. Keeping garbage off the streets is a critical part of this equation and is off utmost importance to enjoying the square.
