2022/1553/P	narelle jordan	04/06/2022 09:18:15	PETTINOHJE	<p>I strongly object to this application. How can someone be allowed to build up to the absolute property line? Is there no regard for tenants at the back of the property? The houses on York Way are mostly rented. We have continuous problems with constant parties from residents at the back with no regard to how much noise they are making and no thought to their surrounding neighbour. We have one particular neighbour who parties outside on their terrace literally all night. We have to keep the bedroom window closed every night to just try and filter out some of the noise - which is cause impossible. There is no way this application should be considered. I am a long standing resident of Marquis Road. I have watched owners of houses in York Way cram illegal terraces onto their property to make the HMO and rent to as many people as possible. The noise pollution is causing [REDACTED]. Also the fact they are planning on culling a very beautiful tree must cross conservation lines. I believe there will be 150 watt lighting. How on earth can this be used and not disturb all other properties near it with light pollution. I strongly object to this application. I am happy to be contacted by the council and continue to discuss this in further detail. No. 63 York Way backs onto my property - I can see that they are purposely letting it literally fall apart - which it is doing - and then I am sure the landlord will take this opportunity to build roof terraces and extensions so he can then rent to as many people a possible thereby destroying our peace and privacy. I thought that the council were very serious about [REDACTED]. Please understand the stress of such extensions and the loss of wildlife, peace and privacy would be an enormous problem.</p>
