UK's best  
filtration

Install internally  
or externally

Bespoke service  
available

**5/8 Stage Filtration  
Process  
No Need For External  
Ducts**

**UKAS Laboratory  
Tested  
Can Be Sited  
Remotely**

## REFLOW

# FILTER PROCESS

# HOW IT WORKS

Extracted air passes through either 5 or 8 stages of filtration.

Fully filtered air exits through the front of the canopy back into the kitchen space.

Remote fitting if space is tight on the cook line.
