Conservation roof windows

From £547.00 excl. VAT

All the benefits of a VELUX roof window with a traditional appearance.

Our classic windows blend tastefully into the roof of your old building with a vertical centre bar and black finish exterior. All our conservation roof windows have the technically superior features of a VELUX roof window in a traditional black conservation style. No matter what type of glazing you choose, you'll have the added benefit of energy efficiency and all the features you'd expect.

Product features:

- Available in either centre-pivot or top-hung opening.
- Black external profiles and glazing bar.
- Recessed installation possible for slate and tile roofs.
- Rotates 180° for easy cleaning of the outer pane.
- Insulation collar and Underfelt collar included in all conservation packages.

Internal finish and glazing

White painted finish

- Above head height
- --70 pane

- Bright white finish with discrete wood grain
- High quality pine wood
- Painted before assembly for a flawless finish
- Laminated inner pane for safety

Optional glazing bars for standard VELUX roof windows

The requirements of conservation officers throughout the country differ and the black finish featured on our conservation packages may not be required in your area.

Consult your local conservation officer to see if you can create a traditional appearance by adding a glazing bar to a standard VELUX roof window with grey exterior.

This will allow you to take advantage of the full range of window styles and sizes available, such as INTEGRA® electric roof windows, or windows with maintenance free white polyurethane internal finish. As with our standard conservation packages, a more traditional appearance can also be achieved by installing the window deeper in the roofline with the use of VELUX recessed flashing kits in addition to the optional glazing bar.

Simply select your preferred VELUX roof window, along with the appropriate flashing kit for your roofing material and add one or more conservation glazing bars in the corresponding size.
