2022/1680/HS2	Victor Max Smith	15/06/2022 17:23:16	OBJ	The original building plan is hideous and would add insult to the injury that HS2 has done to our homes and green spaces in Camden. It doesn't fit in with anything in the area, least of all the fact that this space was a historical nature reserve before HS2 destroyed it (as it's done to many other natural sites). I'm glad I had the opportunity to visit the nature reserve before it was ruined, and I have fond memories of learning why green spaces are so valuable in urban areas. Anything less than a green wall and a wildlife corridor to mitigate the damage would be HS2 putting a massive middle finger up at Camden residents.
2022/1680/HS2	Pat Callaghan	15/06/2022 13:47:28	COMM	<p>My objections are:</p> <ol style="list-style-type: none"> 1. As a local Councillor, I feel that the design which you have put forward is of no architectural merit. The local residents who previously looked out on a wild green area would now be faced with a monstrous eyesore. Why? 2. There is also a failure to screen the building properly, again why? 3. Residents are deeply concerned about the failure to compensate locally for the loss of the green corridor. It seems that this has not been considered in this process.
