I would like to register my support for the Camden Highline planning application. [REDACTED] with the proposed York Way entrance being just [REDACTED]

The rail track is already an important wildlife corridor and the ambition to further develop an ambitious linear park is something that should be applauded and supported. The Camden Highline will also give new life to the neglected Victorian arches and buildings. The result will be a new, natural, community space that will offer increasingly vital outdoor activities for the local community and for visitors.

Many thanks for registering my support for the project.

Best

Steve
