Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The application relates to a like-for-like replacement of the windows in the existing flat which occupies the top two floors of the building. The proposed windows will be like for like in colour and material, and they will consist of the same number and size of panels in order not to change the external appearance of the building.

All windows will be white aluminum to match the existing windows and will come in double glazing and toughened glass, trickle vent, child restrictor and multi point locking system.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

The application is accompanied by the existing elevations of the building which indicate the existing eight windows in Flat 3 of the building that are proposed to be replaced. For information, the side elevations and floor plans of the duplex flat are also included.

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

Please note that following changes to Use Classes on 1 September 2020: The list includes the now revoked Use Classes A1-5, B1, and D1-2 that should not be used in most cases. Also, the list does not include the newly introduced Use Classes E and F1-2. To provide details in relation to these or any 'Sui Generis' use, select 'Other' and specify the use where prompted. See help for more details on Use Classes.

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

We consider that Lawful Development Certificate should be granted as the proposed replacement windows will be like for like in colour and material, and they will consist of the same number and size of panels in order not to change the external appearance of the building. The applicant wishes to replace the windows in order to upgrade the energy performance and u-values of the existing windows which are approximately 25 years old.

As indicated on the drawings, it is proposed that all windows will have like for like openings, except for windows no. 03 and no. 08 where it is proposed to turn the two fixed glass bottom panels into two openers for added ventilation. This proposal will not change the existing number or division of the panels compared to the existing windows. We hope that these new openers will be acceptable, but should this cause any issue in granting the lawful development certificate, we would ask that a conditional grant be issued stipulating that these panels be kept as fixed panels with no new openers introduced.

Amendments Summary

An error was amended in section "Interest in the Land". This was changed from 'owner' to 'lessee' as the applicant is a leaseholder and owns a share of the freehold for the building. The freehold itself is owned by the limited company of which the applicant owns a share.
