Householder Application Granted

Drawing Nos: Block Plan; Location Plan; Existing and Proposed Elevation; Double Doors Section; Manufacturers Specification (4 pages) and Design and Access Statement received on 25th January 2022.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policies D1 and D2 of the London Borough of Camden Local Plan 2017.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: Block Plan; Location Plan; Existing and Proposed Elevation; Double Doors Section; Manufacturers Specification (4 pages) and Design and Access Statement received on 25th January 2022.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The site is a three-storey property located in South Hampstead Conservation Area which is identified in the Conservation Area Appraisal as a positive contributor.

The existing double glazed timber door would be replaced with a new larger double glazed aluminium framed double doors to the rear on the first floor.

The proposed aluminium framed door is located at the rear of the property. No works is proposed to the existing terrace. Furthermore, the patio area is screened from any other properties. The door is acceptable in terms of material, location and design.

Overall therefore, the proposals are considered to be sympathetic to and in keeping with the existing appearance of the host property in terms of the design, locations, proportions and materials, and would preserve the character and appearance of the building and South Hampstead Conservation Area in which it is located, and as such, is acceptable.

There are no amenity concerns to neighbouring properties given the proposal would mainly replace existing building features and fenestration.

The site's planning and appeals history has been taken into account when coming to this decision. No objections have been received following statutory consultation.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the South Hampstead Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act [ERR] 2013.

As such, the proposal is in general accordance with policies A1, CC1, D1 and D2 of the Camden Local Plan 2017, the London Plan 2021 and the National
