Planning feedback studies

March 2022

Introduction.

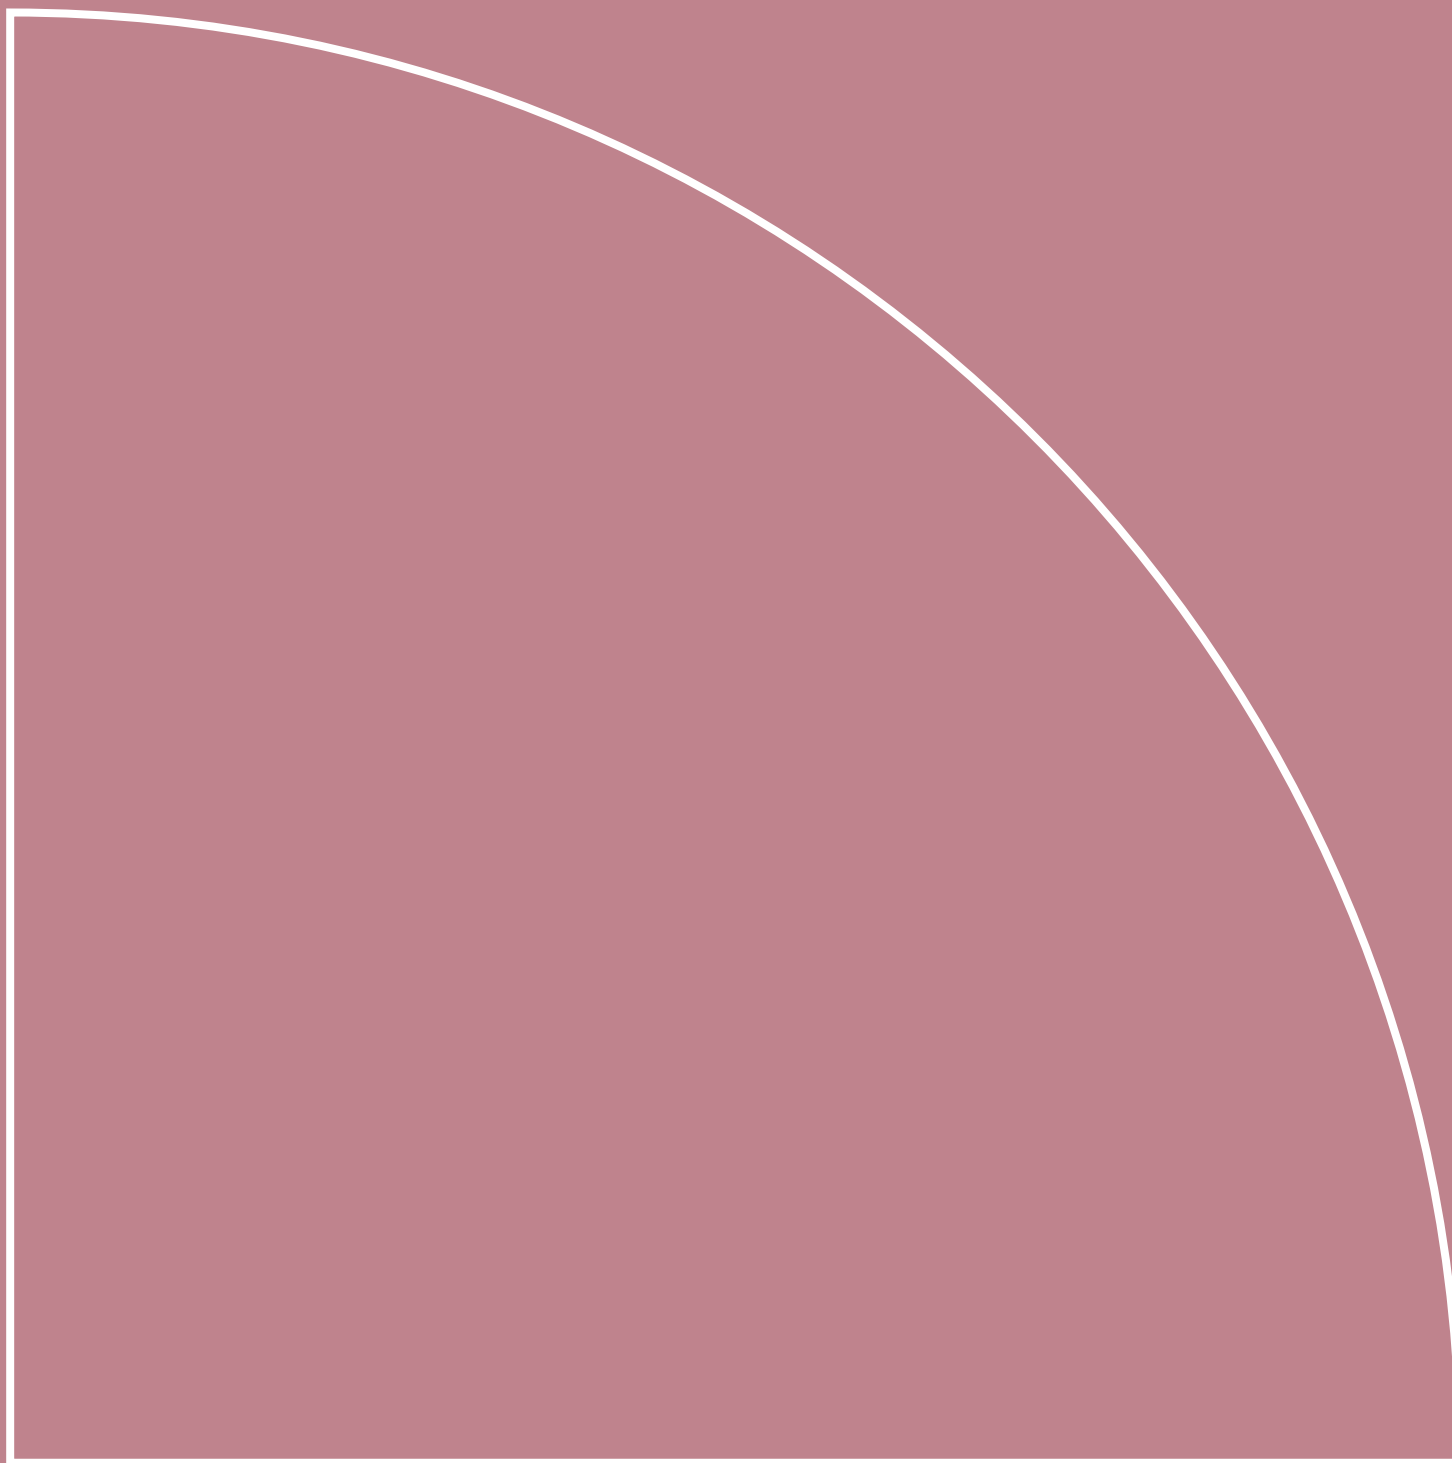

This document is in response to the update agreed with Camden in regards to the architectural facade treatment of the level 6-7 dormer spandrels on the northern facade, and the back painted glass to the Affordable Housing bin store at Ground floor on New Oxford Street.

Level 6-7 Spandrel

It has been agreed to keep the spandrels as currently designed.

Ground Floor Bin Store

The agreed treatment is the application of vinyl on the outer face of the back painted glass. This would allow for the content to be changed regularly without impacting on the Affordable Housing operator, and could lend itself to either retail advertising / signage for the adjacent unit, or something more creative or abstract

Spandrel- Agreed Design

2.0

Bin store - agreed
response

Applied vinyl

Keep the existing glass and apply a vinyl design which can either be used to reflect the adjacent retail use....

Applied vinyl

....or have a more abstract, creative content.
