Dear Patrick Marfleet,

I'm writing to you as a concerned resident of Great Ormond Street with regards to the proposed build of the Great Ormond Street Hospital extension.

Whilst my family and I understand the need for always improving care for children who are sick, we are extremely worried about the impact this new build will have on our environment for the next 5 years.

Our main concerns are :

The lack of proper consultation as few residents have known about this.

The massively over-proportioned scale of the new project, which will block out light for many residents forever, and as air quality in our area is already well below European standards, the emissions from thousands of 30 tonne truck journeys through our streets will only add to air pollution, dust and industrial airborne pollutants. This is of grave concern to our community.

Yours sincerely,

Sidsel Risemark Top, [REDACTED]
