London, 22/06/2022

Dear Sir /Madame,

[REDACTED] to the **Planning Application 2022/2255/P** submitted for the Construction Management Plans for the GOSH phase 4 construction.

I object on the grounds that this plan appears to take absolutely no consideration of those who live and work in the neighbourhood. This includes hundreds of local children.

By these current plans, all our lives will be severely impacted for up to five years and I am shocked by the lack of consideration for local residents prior this application being submitted.

Hours: These are extremely open-ended with works potentially being carried on at any hour and on any day with almost no protections. This includes anticipated noisy and high-level vibrations works.

Transport Management: or the lack of one ...Where is a full transport assessment?? Current plans take absolutely no consideration of the level of traffic already in the streets that will be affected by flows of highly polluting and dangerous HGV lorries for 5 long years. This is when alternative routes could and should be considered .

Cycle Lane Disruption: What route do they suggest cyclists use given the level of construction/construction vehicles? Is their safety being taken into account?

Traffic management: any consideration for local children having walk to school in these highly congested and polluting mess they will be inflicting ?

Impact on local businesses: Have they actually carried a business impact survey ? Will GOSH / Camden be able to compensate locals for loss of business? Very much loved restaurants and cafes will lose their outdoor seating and any businesses which rely on being able to drive north of LCS, will be severely compromised. This as a direct result of this construction management plan.

Trees : A predicted appalling damage to and or removal of mature trees, an extremely valuable community asset and crucial to Camden's environmental policies.

Please note these are only few of the very inconsiderate points of this application submitted and I sincerely hope Camden will take all residents into consideration while assessing this terrible application.

I thank you in advance for your consideration

Kind Regards

Dario Vigorito
