2022/2534/T	B A Abraham for the Belsize Society	24/06/2022 15:44:46	OBJ	<p>For the Belsize Society: This tall sycamore tree is visible from Buckland Crescent between nos. 22 and 24. It also forms part of the narrow but important green corridor between Buckland Crescent and Belsize Park that provides some protection from the air and noise pollution of the nearby junction of College Crescent and Finchley Road. The green corridor is also important in providing a diverse wildlife habitat that extends along a series of trees.</p> <p>Felling trees should be a last resort and no good reasons or evidence are given for felling this sycamore. Pruning might assist in reducing the shade.</p>
