2022/2645/T	B A Abraham for the Belsize Society	24/06/2022 16:04:12	COMMNT	For the Belsize Society: if this substantial old tree is decayed beyond rescue by pruning, it is hoped that one or two suitable new trees will be planted to fill the gap left by the black poplar. The old tree will be providing a rich wildlife habitat for birds, insects and other fauna and it is hoped that the felled logs can be retained on the ground nearby to provide habitat while the new tree/s grow.
