2022/1233/P	Ms Katharine Morton	04/07/2022 09:52:49	NOBJ	As a direct neighbour of the applicants, myself with a wooden gate, I consider the style and materials of the applicant's proposed painted wooden gate to be perfectly in keeping with the local area and original 'feel' of the conservation area and am happy to believe it would be an appropriate addition to the property.
2022/1233/P	Salia Samai	30/06/2022 20:15:20	SUPPRT	I am writing in support of the above application to install a wooden gate at the front of this property. It appears in keeping with the residential properties alongside and does not impact adversely in the character of the houses in the road.
2022/1233/P	shezi nackvi	04/07/2022 07:52:33	NOBJ	We have absolutely no objection to this planning application ,the wooden gate will greatly enhance the appearance of the street and is in keeping with the original.
2022/1233/P	Richard Holland	30/06/2022 10:46:19	COMMNT	Dear Neil, This is all nonsense. There is no one style for gate entrances in St Mark's Crescent. We have none, Others have various styles of wrought iron, and many have none. Irene and i think your current gate is just absolutely magnificent. I think your new gate enhances the road, and should be the model for those whose old wrought iron gates have long passed their use by dates or have been stolen. We would absolutely love having an exactly same style gate as you currently have. I support the retention of the lovely gate you have just recently installed and wish to compliment you for investing such effort, time and money in enhancing the road. Best regards Richard and Irene Holland
