Although the proposed unit is on the side passage (west) of the building, rather than on the the front facade, it is still clearly visible from the street.</p> <p>In addition, as a principle, we discourage the use of a/c systems as they are generally unsightly and in anyway not very environmentally responsible.</p> <p>On Monday July 4 I made a site visit to make a few photos. I was surprised to see an a/c unit already there, exactly on the proposed location. Unless and until this application is granted approval this is a breach of planning law and enforcement action should be taken.</p> |
