2022/1879/P	Robert Plehn	07/07/2022 16:03:35	OBJ	<p>We are in full agreement with HCAAC objection. The current property and additions (outdoor speakers, security lights, decorative outdoor lights) are already intrusive. The property is already literally and figuratively on top of us with little separation and in the last few years due to alleged subsidence at applicant property we were required to remove a 100+ year old tree that had at least provided some privacy. New addition will bring the dwelling right up against our property line and outdoor space with further noise and light encroachment. We object to the proposal and in any event would see no reason for any waiver of current rules per maximum length of extensions from original dwelling (3m for semi detached dwellings).</p>
