2022/2019/P	Martin Roberts	06/07/2022 13:56:17	SUPPRT	This development will make a huge difference to the Camden Town area in terms of green spaces and pedestrian access across the area away from ground level and vehicle traffic and pollution. It will also provide easier access to Camden Road station, again away from street level traffic and pollution. Paris and New York both have similarly conceived high-line projects using abandoned railway structures and which have been very successful in helping regenerate/enhance urban areas.
