Informative(s):

- 1 Reasons for granting permission.

The proposal is for the demolition of the existing rear extension and glazed pitched roof conservatory and the erection of a new single storey flat roofed rear extension. The existing extension is non-original and was approved in 1998.

The proposed extension would be full width and there are a number of full width extensions along Crediton Hill including at nos. 31, 33 and 35. The proposed demolition would not involve the loss of original features and is considered acceptable.

The existing rear extension measures 4.1m high, 5.9m deep and is also full width. The proposed extension would measure 3.3m high (with a mono-pitch roof rising to 4m) and 5.9m deep. The massing and scale would therefore be similar to the existing, and would be subordinate to the main house and an acceptable amount of garden amenity space would be retained.

The extension would be finished in white render which is considered sympathetic to both the host property and surrounding area. The initial proposal has been amended to reduce the proportion of glazing and to ensure a more vertical appearance on the rear elevation.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation

Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

A daylight and sunlight impact assessment has been submitted stating that the proposal would not cause adverse light impacts on neighbouring occupiers. It is considered that there would be no further impact on light, outlook or privacy to neighbours beyond that caused by the existing extensions.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the Camden Local Plan 2017 and Policies 2 and 3 of the West Hampstead and Fortune Green Neighbourhood Plan 2015. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.
