Dear Patrick

We understand that GOSH is discussing with UCLH to find a route for construction traffic which would suit both parties. We strongly believe that the objections of local residents and businesses should also be taken seriously by GOSH, and that local residents and businesses should be consulted about any change to the plans the subject of planning application 2022/2255/P. We should be grateful if you would ensure that this occurs. Moreover, if the discussions lead to any change to the plans, a new planning application should be submitted so all interested parties are given time to consider the new proposals and submit comments if so desired. Again, we should be grateful if you would ensure that this happens.

This is not a statement of objections to the existing application. The points previously made in relation to that application stand.

Yours
