**GT1 - A19 Proposed Amenity Grass**

A19 is a tough multipurpose mixture suitable for domestic lawns and commercial landscaping projects. It produces a fine even textured ground cover which maintains good all year greenness. Wild flower species can also be added to this mixture for increased diversity. For very low nutrient situations ABERACE miniature leaved white clover can be incorporated to provide a free constant supply of nitrogen.

**Grasses (100%)**

Species	%	Grams/m <sup>2</sup>
CORAIL Slender Creeping Red Fescue	30%	35
JOANNA Chewings Fescue	25%	35
ABERONILE Perennial Ryegrass	20%	35
VESUVIUS Perennial Ryegrass	20%	35
HIGHLAND Browntop Bent	5%	35

**GT2 - WFG7 Free Draining Sandy Soils**

Sand based soils often create unsuitable or dry site conditions. For this reason grasses contained in this mixture are both drought resistant and provide stabilising ground cover. Suitable for use in road construction, sand pits and on free draining sites.
