2022/2022/P	Alexandra Reitman	19/07/2022 17:22:47	SUPNOT	As a local resident and a member of the Friends of Regents Park and Primrose Hill, I am fully supportive of this proposal. It is a well considered scheme, the school and children will greatly benefit from the enlarged playground area and the much needed additional shading from the canopy. The new doors into the playground from the classrooms will be great for natural ventilation and enable better circulation and access. I also think the new planting and trees will be beneficial and appropriate to the setting of the park. I commend the school for taking the initiative to address the structural issue of the retaining wall with a scheme that introduces additional benefits for the students and the local environment.
2022/2022/P	Richard	22/07/2022 08:59:53	COMMNT	This will provide much needed additional space for pupils and we SUPPORT the application
2022/2022/P	Nick Benwell	19/07/2022 16:32:13	COMMNT	I am very supportive of this application. Given the need to replace the existing retaining wall, works will be required to the site in any event. By moving the retaining wall, this will substantially increase the amount of usable space for the school without impacting negatively on the surrounding area. The proposed plans will create well-designed outdoor space that will provide much greater possibilities for classes to be held outside, and will provide more play space.
2022/2022/P	Allan Jenkins	21/07/2022 16:12:54	SUPPRT	Very supportive of this application. The works provide an opportunity to renew and refresh a tired and decaying area of the school site. The school does amazingly well for local children, with a very limited amount of space - maximising the enjoyment of children through utilisation of the whole area and providing a building conducive to learning is vitally important.
2022/2022/P	Francesca	19/07/2022 20:50:48	COMMNT	This project is very important for the school, the children and the community. The kids spend most of their days at school and it is very important for their growth and development to learn in the right environment. This project is very important!
2022/2022/P	Mr Martin Brass	21/07/2022 16:34:31	COMMNT	This is an excellent plan that will make good use of a part of the school grounds that are currently not well utilised.
2022/2022/P	Jasmine Montgomery	19/07/2022 16:59:43	COMMNT	Sounds like a brilliant plan. My son is a pupil at St Paul's and this will make some really lovely and welcome changes to the school
2022/2022/P	Jasmine Montgomery	19/07/2022 16:59:38	COMMNT	Sounds like a brilliant plan. My son is a pupil at St Paul's and this will make some really lovely and welcome changes to the school
2022/2022/P	Jasmine Montgomery	19/07/2022 16:59:33	COMMNT	Sounds like a brilliant plan. My son is a pupil at St Paul's and this will make some really lovely and welcome changes to the school
2022/2022/P	Mary Jane Roberts	19/07/2022 15:33:51	SUPPRT	Fully in support of this and the sensible extra space usage. This is a good set of ideas valuable to the children's environment and education.

Application No:	Consultees Name:	Received:	Comment:	Response:
2022/2022/P	Milica Plinston	21/07/2022 19:23:29	SUPPRT	This is a better use of space and improves the existing access to the classrooms. Children will benefit from creation of more usable space for play and learning about growing food sustainably. This area could even become an extension to the classroom the same way space is used for reception and year one. Additional doors into existing classrooms will allow the children to spill out from the classroom directly to the well considered outside space. Some thought should to be given to access for glass canopy cleaning and any solar shading opportunities the canopy could provide. There will be a good degree of supervision by the teachers given that the newly created are is level with the classrooms and the rest of the playground.
2022/2022/P	Katrina Hughes	21/07/2022 17:29:51	SUPPRT	I fully support option 2 on this application. It will provide extra space and more area for the older children. It will also provide future prospects for the school to provide more for the children who attend the school.
2022/2022/P	Imogen Chow	19/07/2022 15:42:46	COMMNT	a much needed repair to the school and upgrade for the education facilities.
