Urban Context

This report presents the proposed scheme for 66-70, Parkway, Camden Town, London, NW1 7AH [see map]. It outlines the scheme in relation to specific areas of flood risk and prevention.

This proposal is for the permitted development from offices (use class E) to two residential units (C3 use) on the first and second floor.

Fig 1: Site Location and Block Plan

Waste and Recycling Collection

A search (See screenshot below) on Camden Council' website indicated that street collection of waste and recycling for flats above shops is offered on addresses adjacent to the address with the proposed flats.

We are currently experiencing recycling and waste collection delays. If your recycling or rubbish has been missed, please leave it out for collection - we will attempt to collect it as soon as possible. For more information please call 020 3567 8105 or email uk.occamden@veolia.com

72 Parkway, London, NW1 7AH
Maisonette 1st 2nd and 3rd Floor, 76 Parkway, London, NW1 7AH

Waste and Recycling Collection

As such, the development will make use of the Council's waste and recycling collection facilities as per the advice on Camden council website for flats above shops:

"Many flats above shops are on streets with time-banded collections.

Residents who live in flats above shops in these areas should only put their securely bagged recycling and rubbish out at set times during the day."

(Please see screenshot below)

Put your recycling and rubbish bins, bags and boxes at the front of your property

House or converted house

On your collection day, you should put your recycling and rubbish bins, bags and boxes at the front boundary of your property:

- before 7am
- within one metre of the entrance of your property
- as close to the pavement as possible
- at street level – we can't collect wheelie bins from basements or up steps

If you have no space at the front of your property, put them on the pavement. Do not block the path.

After collection, we will return your bins, bags and boxes to where you placed them. If you put them on the pavement for collection, you must take them back within 24 hours.

Communal bins

Housing estates usually have larger communal bins. If you live on an estate, ask your caretaker, on-site supervisor or a neighbour where to take your rubbish and recycling.

Flats above shops

Many flats above shops are on streets with time-banded collections.

Residents who live in flats above shops in these areas should only put their securely bagged recycling and rubbish out at set times during the day.
