Subject: Planning Application 2022/0528/P: Submission on behalf of Confederation of Local Groups

Dear Camden Planners,

I am writing to submit a document that constitutes a formal objection to the above planning application, on behalf of a confederation of local groups that are opposed to the present application by Landsec. This is the same group that met online with Cllr Beales and Dan Pope in November 2021, and the organisations involved are listed on page 2 of the document.

Please note that I am submitting this on behalf of the confederation, and that a submission on behalf of the Fortune Green and West Hampstead Neighbourhood Development Forum itself will be made separately. Each of the other organisations may also submit additional representations specific to their own circumstances and communities.

Best wishes

Keith
