But I am not happy that they are building a first floor balcony. The views into the neighbours gardens are currently restricted due to no balconies. And while theirs does not view into my home I do not want the precedence of my neighbours being able to build balconies that directly look into my garden and impact my privacy in my home.</p> <p>We don't have that aspect in the street and I feel the privacy and ability to have a private life inside the street should be respected.</p> |
