

## ACCESS CONTROL

## ORC-4DC

## SPECIFICATION

SIZE	218mm x 130mm x 23mm
WEIGHT	0.22kg
FINISH	Grey
BOX	285mm x 240mm x 82mm
BOX WEIGHT	1.6kg
BOX FINISH	Black

## DESCRIPTION

Orcomm 4 Door Controller can be used in residential or commercial environments. Designed to be flexible and robust with Wiegand, RS485 and TCP/IP communication. Every controller can connect to our Advanced Management Software or standalone via web server client.

This controller can control 4 zones - gates, barriers and electronic doors, using our on board 10A relays. Fire alarm inputs are ideal for opening or closing doors when required during an emergency.

Additional Alarm input / outputs allow the controller to be programmed for more functions.

## TECHNICAL INFORMATION

POWER	<1W
POWER PROTECTION	10 Years
VOLTAGE	12V DC
CURRENT	<120mA
TEMPERATURE	<60°C
HUMIDITY	10% - 95% R.H
CARD HOLDER	30,000
LOGS	60,000
ALRAM CAPACITY	10,000
COMMUNICATION	TCP/IP
DISTANCE	100 Meters
CARD READING	Wiegand
OPENING METHODS	4 pcs (WG/HID/Motorola/Wiegand)
FIRE/ALARM OUTPUT	1 pcs
FIRE/ALARM INPUT	1 pcs
RELEASE BUTTON	4 pcs
DOOR SENSOR INPUT	4 pcs
LOCK OUTPUT	4 pcs
