Camden Planning Application

Dear Mr Wong

Re: Planning Application - 2022/2636/P

As a resident of Kingswood Court which is positioned next to Manor Court I strongly object to this planning application for the following reasons.

The application 2016 /5383/P for the same development met with very strong opposition and was withdrawn.

Manor Court is within South Hampstead Conservation Area .The proposed development would infringe conservation restrictions.

The area is overpopulated .The property does not have sufficient space for any off street parking, on street parking in Abbey road is at full capacity.

The addition of an extra floor would impact the far reaching views from my 2nd floor flat ,replacing them with brick and windows this would affect my well-being considerably.

The light entering into my property would be greatly impacted.

This development greatly impinges directly on the privacy from others whilst within my own home.

Please consider this application very carefully as it will have a massive undesirable affect on those living in close proximity.

Yours sincerely,

Mrs Ruth Abrahams
