

Endell Street – Essential Gas Works

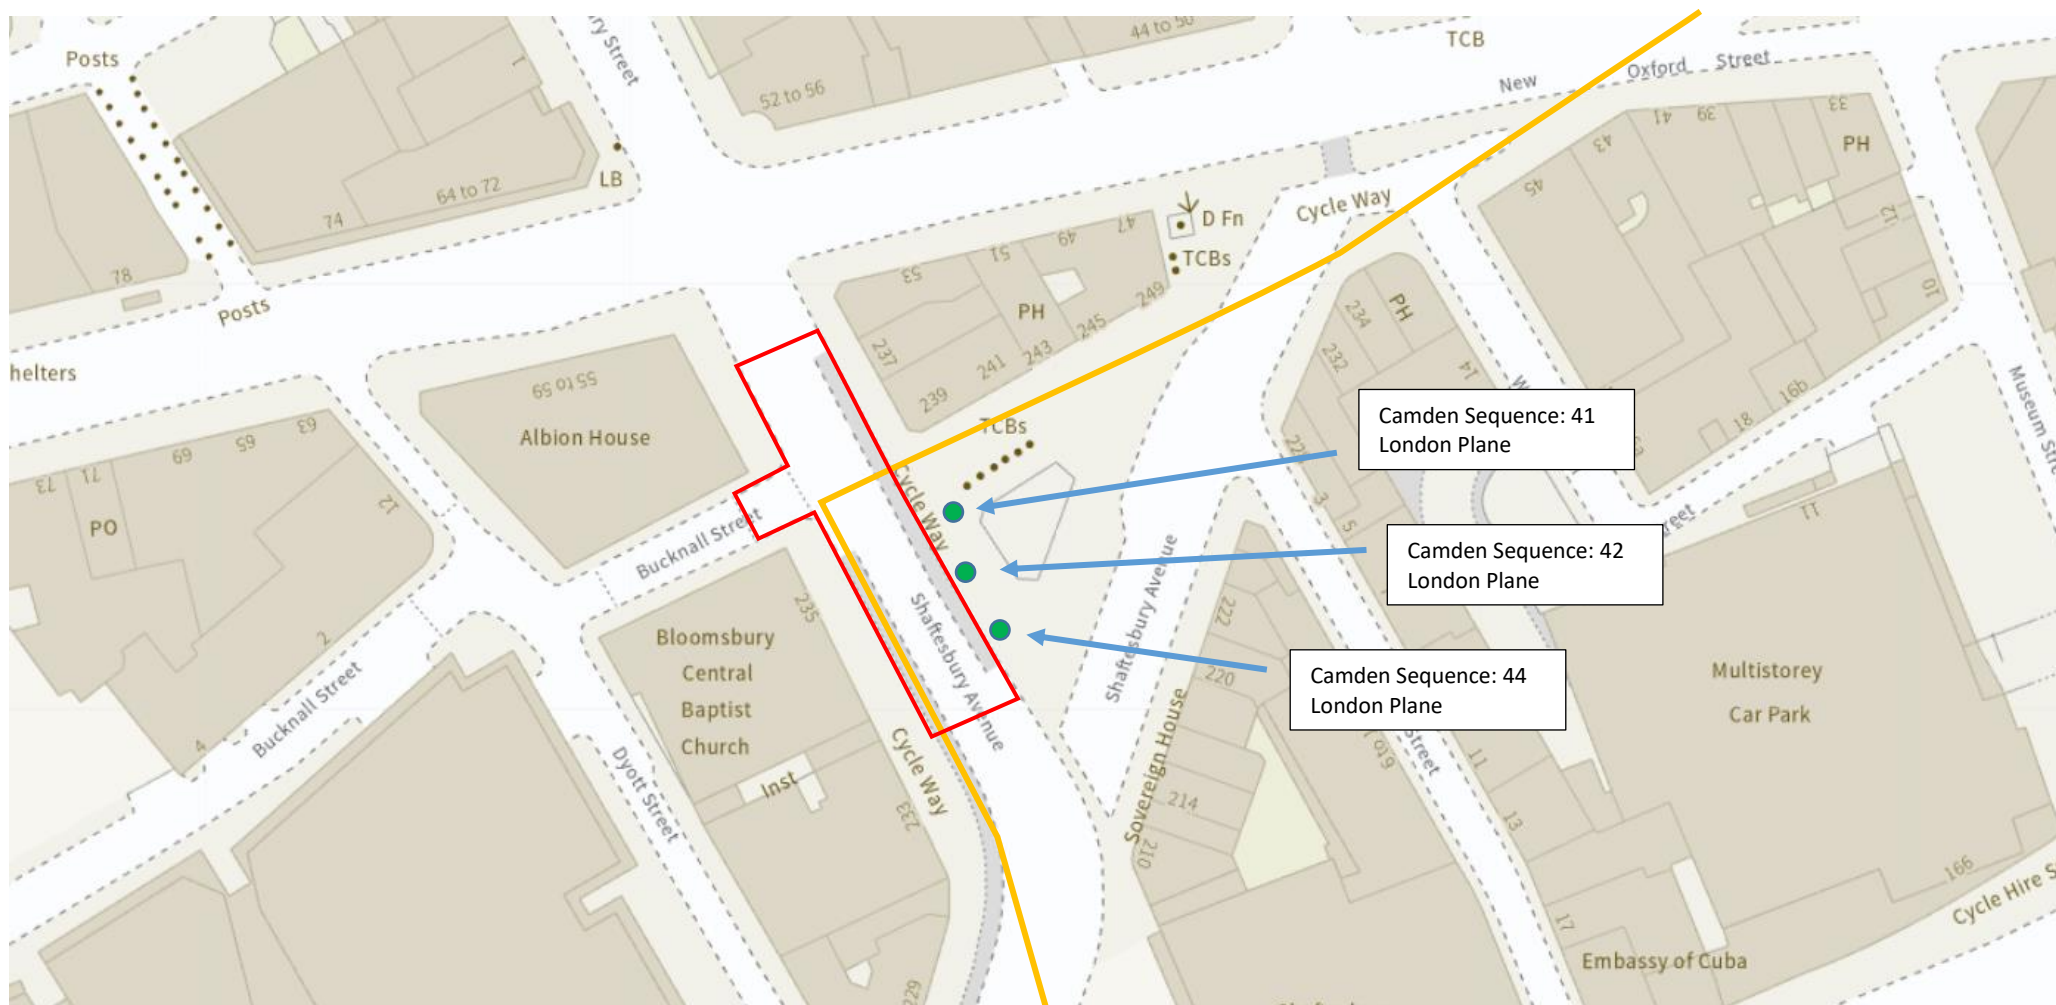

Trees to be affected by gas mains replacement works (including pre-enabling and trial holes) are highlighted below. This purely consists of severing roots to access the existing gas mains which are located within public highway. Above-ground works (ie. branch pruning) will not be required for these works.

● = Tree Affected Protected by Conservation Area

— = Location of Gas Main

□ = Location of Essential Gas Works (Excavations within the Zone – Exact Location & Dimension Unknown)

Shaftesbury Avenue (J/C Bucknall Street)

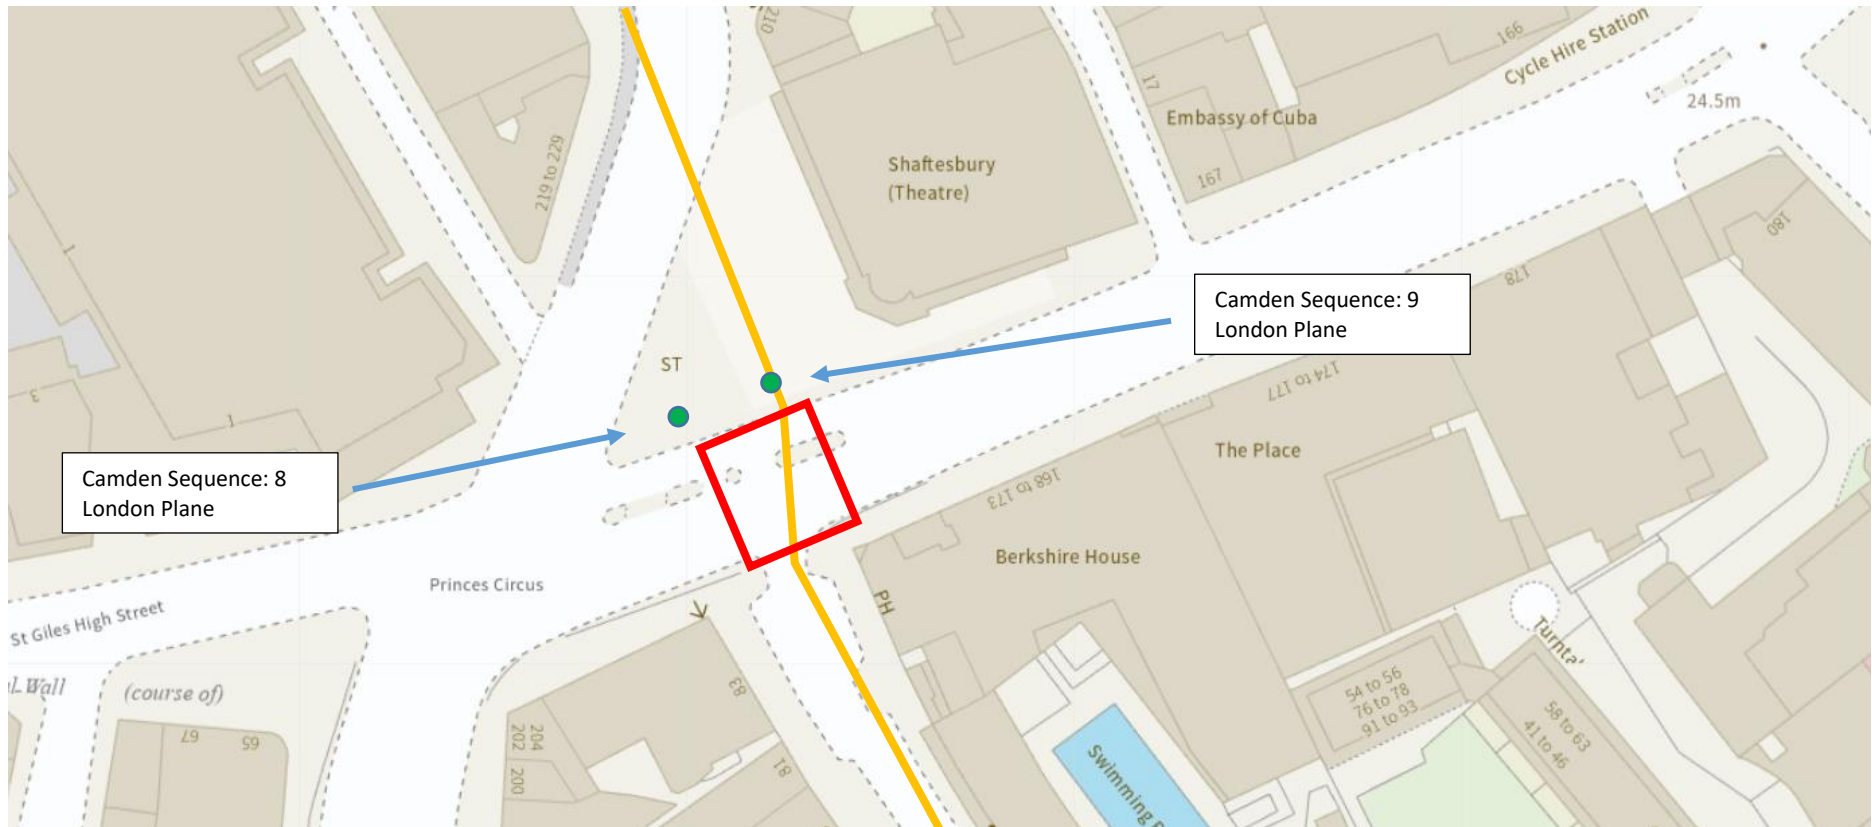

Trees to be affected by gas mains replacement works (including pre-enabling and trial holes) are highlighted below. This purely consists of severing roots to access the existing gas mains which are located within public highway. Above-ground works (ie. branch pruning) will not be required for these works.
