This site at ground floor level facing a lot of new storage facility develops and offices is ideal for a fish and chip and kebab shop but not a private flat, since it's at the corner of a busy road , much trafficked by HGV's and cement mixers that are incredibly dust producing. I appreciate that the landlord is perhaps wanting to make himself more money at this time, perhaps even with plans for arranging short term lets to tourists, but please could Camden Council abide by the existing Council Planning agreement for this spaces, that this premises serves fish and chips and very good company to local residents both young and old. My whole family of 4 certainly don't want the premises to close and wish to support this family business.</p>

The family who own/run the business are wonderful, hardworking people, who serve fantastic food, and always with a smile. They are also fantastic neighbours, and many women I know feel safer walking down York Way knowing that the store is there, and they are being looked out for. The local area is enriched by this family, and their establishment, and to evict them, and replace the store with a residential flat would be heartbreaking, and a real loss to the area. We should be championing, and supporting, our local businesses, particularly those that have served the people of this area for so many years, through thick and thin. At times like this, people need a sense of community more than ever, and this store is a pillar of our community, and it should be protected.</p>
