Subject: 2022/3096/T Intended Works to Tree in Conservation Area

Hello, thank you for your letter.

I have been away from home so am only just seeing the plan to fell a tree to ground level at 68 Marquis Road.

I live next door at 70b, and I would strongly oppose the felling of the tree to ground level. I appreciate being able to look at it, and the wildlife it harbours.

However, it is growing quite large these days and would certainly agree that it needs cutting back. I would just ask that it be cut back by a few meters, importantly not completely to ground level.

Many thanks,

Leo Suter
