

Application No:	Consultees Name:	Received:	Comment:	Response:
2022/1965/P	Belsize Society by Tom Symes	12/08/2022 16:05:44	OBJ	<p>The Belsize Society strongly objects to the application for retrospective consent. The developer has deliberately breached a number of policies causing harm to the Conservation Area.</p> <p>The suggestion that the improvement/maintenance of the remaining section of wall mitigates the effect of the removal of the rest and the installation of the area that appears to be designed for us for parking is clearly wrong.</p> <p>The removal of the existing original brick boundary wall and the paving and parking of cars in the front garden is against the policies of the Local Plan, policy T/2d, and the F/N Conservation Area Statement, clause F/N 31.</p> <p>It is essential that the Conservation Area is not harmed and that the paving be removed, the planting replaced and the boundary walls and piers be rebuilt exactly as before their destruction</p>
