Subject: Comments on 2022/2236/P have been received by the council.

The Camden Local Plan at para 6.89 states

"Where uses sensitive to noise and vibration are proposed close to an existing source of noise the Council will require an acoustic report to accompany the application."

Housing is obviously a use sensitive to noise and vibration and this property fronting the busy York Way could hardly be closer to an existing source of noise.

This application cannot therefore proceed until the applicants have complied with the Local Plan requirement to provide an acoustic report and the results compared with the Council Noise thresholds.
