ShinePhone

Online Smart Management APP

Multifunctional power plant monitoring and management APP for end users. 12 different languages to support global customers

APPLICATION

Real-time power plant monitoring and smart management

Convenient local configuration for power plant commissioning

Integrate GroHome smart home platform

ShinePhone is available on Apple Watch and Google/Amazon Speaker

Enjoy the smarter green life freely

Apple Watch

- Fetch your PV system information from your wrist;
- Multi-interface display for PV system power generation and consumptions;
- Smart control for GroHome system integrated with EV Charger, GroBoost and IoT devices etc.

Google/Amazon Smart Speaker

- Voice control to learn your PV plant information;
- Scheduled broadcast for your plant data

TECHNICAL PARAMETER

Datasheet	ShinePhone
General Data	
Available languages	English, Chinese, Japanese, Dutch, Hungarian, Italian
Supported operating systems	Android / iOS
Source of data	server.growatt.com
Plant information	
Plant overview	Quick yield overview of all your PV plants
Specified plant	All important data at a glance including energy output, yield gains, current power
Plant installation data	Summary of all plant information which contains installation data, location data and income data
Device overview	Display of all important data about inverters, environment monitor, and electric meter
Plant event log	Display of all the warning events of the plant
Device information	
Inverter data	All inverter running status and data could be obtained at any time
Environment monitor data	Key parameters about environment could be obtained
Electric meter data	Primary parameters at the point of connection are collected in every measured period
