Subject: Planning Application - 2022/2613/T

Dear Sir / Madam

I write to add my comments to object to this application.

The tree adds immensely to the Street scene and the works are a simple short cut of cost to the boundary wall
Which can be fixed in a different manner by the owner. The tree has been there long before the property owner
and adds significantly to the environment – hence the TPO.

The appropriate remedy should be covered by the owners insurance and not be an excuse to simply cut down a
Fine specimen of a rare tree.

Thank you
