2022/2543/P	Caroline Noon	23/08/2022 11:15:18	COMMNT	<p>I am a neighbour to number 20. When the work was started I asked for a party wall agreement and was told it was not needed. There was no consultation with neighbours even though steels were put into our party walls. Both neighbours had falls of debris in the chimneys at no 19 and debris in the attic at No 21 - photos can be provided. We raised the issue with the planning department at the time and the work was stopped. It seems the work was carried out and may even have been completed without architect plans, and I wonder if can we be reassured that the different roof shape and additional weight (if the current butterfly shaped roof is to remain) won't impact our properties on either side.</p>
