2022/3088/P	Alison Broomer	20/08/2022 04:21:04	COMMNT	<p>The design is similar to the existing roof extensions at No's 24-32 Elliott Square and those recently approved for No's 10-15 Elliott Square.</p> <p>¿ Having a consistent design approach ensures the architectural quality of the Square is maintained.</p> <p>¿ The mansard type design is much more sympathetic to the existing buildings and would be less bulky than a straight up extension in line with PDR guidelines.</p> <p>¿ The proposed design and construction to current standards will improve the energy efficiency of the existing property and reduce its carbon emissions.</p>
2022/3088/P	Melanie	20/08/2022 10:09:02	NOBJ	<p>I am happy that all the roof designs are consistent in Elliott square like 24-32 And 10/15</p> <p>I think the proposed design will improve the energy efficiency of the existing property</p>
