Proposal			
Like for like replacement of 11 single glazed windows with double glazed windows			
Recommendation:	Issue Certificate		
<p>1.0 Introduction</p> <p>1.1 The application site is Bedford Court Mansions, a Victorian residential mansion block that was constructed in red brick with white timber windows. Flat 85 is located on the corner with Bedford Avenue and Adeline Street at second floor level.</p> <p>1.2 The host building is not listed and sits within the Bloomsbury Conservation Area. The building is identified as making a positive contribution to the special character and appearance within the conservation area (<i>Bloomsbury Conservation Area Appraisal and Management Strategy</i> 2011).</p> <p>1.3 The application seeks confirmation that the proposed replacement of single glazed, timber framed windows with double glazed like-for-like windows at second floor level on the south-west, north-west and south-east elevations does not constitute development and is lawful such that planning permission would not be required.</p> <p>2.0 Applicant's Evidence</p> <p>2.1 Site location plan SL-001, BL-002, A100, A150-EL, A200, A250-EL, Design and Access Statement, Manufacturer's Details.</p> <p>3.0 Assessment</p> <p>3.1 Development is defined by section 55 of the 1990 Town and Country Planning Act as 'the carrying out of building, engineering, mining or other operations, in, on, or under land or the making of any material change in the use of any buildings or other land'.</p> <p>For the purposes of this Act "building operations" includes—</p> <ul style="list-style-type: none"> a) demolition of buildings; b) rebuilding; c) structural alterations of or additions to buildings; and 			

d) other operations normally undertaken by a person carrying on business as a builder.

The following operations or uses of land shall not be taken for the purposes of this Act to involve development of the land—

a) the carrying out for the maintenance, improvement or other alteration of any building of works which—

(i) affect only the interior of the building, or

(ii) do not materially affect the external appearance of the building.

3.2 Notwithstanding that the proposal involves the installation of double glazing to replace single glazing, the applicant has provided sufficient evidence to demonstrate that the proposed replacement windows would match the existing in terms of type, glazing pattern, proportions (including the shape, size and placement of glazing bars), opening methods, materials and finishes, detailing and the overall size of the window openings.

3.3 The proposal would therefore not materially change the external appearance of the building and is not considered to fall within the 'meaning of development' requiring planning permission as defined by the Town and Country Planning Act 1990.

3.4 It is therefore considered that the application proposal is lawful and it is recommended that a certificate of lawfulness be granted.

4.0 RECOMMENDATION: Grant certificate of lawfulness
