2022/3110/P	Sharon Shingles	08/09/2022 16:29:51	SUPPRT	<p>¿ The design is similar to the existing roof extensions at No's 24-32 Elliott Square and those recently approved for No¿s 10-15 Elliott Square.</p> <p>¿ Having a consistent design approach ensures the architectural quality of the Square is maintained.</p> <p>¿ The mansard type design is much more sympathetic to the existing buildings and would be less bulky than a straight up extension in line with PDR guidelines.</p> <p>¿ The proposed design and construction to current standards will improve the energy efficiency of the existing property and reduce its carbon emissions.</p>
